https:// github.com/InternetAunt

Dedicated, quick starter, focused, responsible programmer with a curious mind. I enjoy designing tech websites and digital products. I am most attracted to solving real customer problems with a business justification. My aim is not only to solve problems, but also passionate about developing complex applications that solve real-world problems impacting millions of users. I hope to work in an organization where I can enhance my professional skills, capabilities and knowledge and which also recognizes the value of hard work and trust me with responsibilities and challenges.

COMPETENCIES

- Active listening

- Attention to detail

- Interpersonal communication

- Risk mitigation
